

ADD64S Truck Forward Sensor Package

Truck Forward-Facing Sensors with audio alarm Use with any Verity Rear Vision System

- 4 Self-calibrating, Audible (buzzer) sensors
- Waterproof: IP69
- Install: Heavy Duty, Snap-In for quick installation
- Sensor size: 45mm
- Sensor color: black
- Rated Voltage: 13.5 VDC
- Operating Voltage Range: 9V ~ 16V
- Operating temperature: -40°C ~ +85°C
- Detection Ranges: 0 – 1200±50mm
- Working technology: Ultrasonic 58KHz
- All necessary cables/harnesses included

The outward horizontal detection range typically detects 1' out from the truck to reduce false readings. Sensor placement determines this range after it calibrates it

**Because our Sensor Systems are engineered to pair with Verity systems, our warranty applies only when used with Verity Camera Systems.*
